SEPTEMBER 2021 UPDATE

Midwest Bible Baptist Church, Rochester, MN. Joe Newton and Byron Goodman have finished the work for this year. The church will be building a new addition and should have the structure up by Spring 2022. We are needed for rough in of the electrical, plumbing, HVAC, and various tasks. Exact dates for 2022 are not available yet, so watch for updates.

Camp Red Arrow, Stevensburg, VA. They are building two new duplexes. After the shell is up we will start on the interior work. There are 7 full RV hook ups and 6 cabins to live in. Dining hall and food is available. They plan on providing breakfast and lunch; we can use their facilities and provisions to prepare our dinners if we want. They are hoping we can be there this fall. As of 8-30-2021 they are still waiting for permits and job start. Not sure when this will break. I will keep you updated.

Frontier School of the Bible, Lagrange, WY. There is a list of various construction work requested. If you can get there this fall let me know. I will get you the needed info. Dennis & Darlene Korneychuk are there part of the time.

Teen Harvest, Ava, Missouri. Joe Newton is there and working. If you are interested in helping, please contact Steve for a more detailed list of projects.

Options Pregnancy Center, Ava, Missouri. The center is 30 minutes from Teen Harvest. They need to turn one large room into 4 smaller rooms in their existing building. The ceiling also needs to be dropped. If you can go to Teen Harvest, we will do a daily drive back and forth to do this little job. Joe Newton will be heading this up. We hope to start this project mid-September. This is a real opportunity to make a difference for the unborn.

What a marvelous thing it is for folks to meet the Lord for the first time or get to know Him better through facilities we helped to provide. What better use of your time? Won’t you help? LET’S DO THIS!

Remember, You MUST contact me, Steve Voreis, before going on a project, so that we have all the appropriate forms completed before volunteers start showing up at a project.
